

# World's first mobile based EVM

Dr. Ghanashyam Sethy (Health Specialist), Dr. Syed Hubbe Ali (Health Officer)  
Unicef Field Office of Bihar, Patna

## ISSUE

Digitising and analysing the data in conventional EVM process is cumbersome

## ACTION

**EVM Assessment Tool**

**EVM Template Report**

Data Entry in EVM XLS Tool

EVM Template Report

Paper Forms

Android Device

Smart forms that are designed once but used in both Android Smartphones and Web based data entry

Option to collect various data types - numeric, text, pictures, and geo-coordinates. Forms have built in constrains for completeness of survey.

Online Web Form

Online Database

Cloud storage of raw data makes it secure and readily available. Multiple backups ensure disaster recovery.

DevInfo Database

Rule Engine

DevInfo Adaptation

Dashboard

**Dashboard**

<http://evmindia.org.in>

GIS dashboard to analyse data by location

Compare data across time periods through spider and column charts

**DevInfo Adaptation**

Query across criteria and category dimensions: generate map, chart and table presentation

Factsheet

**EVM Factsheet**

Salient Strengths and Areas for Improvement: ARARIA

Ready to print factsheet and improvement plan

Drill down data tree to view micro data

## IMPACT

## HONOURS

**1st**

Prize in SAARC Region UNICEF Health Network Meeting

Published in Global Immunization News (GIN) Sept. 2014
