

Trócaire Governance & Human Rights Programme Assessment Toolkit

Client:

Location: India (Odisha), North Uganda

ISSUE

To establish a programme monitoring framework for its Governance and Human Rights programme, Trócaire needed to determine:

- 1) The baseline for the programme targets
- 2) The value it added in strengthening the capacities of the Community based organisations (CBOs) as well as the partner organisations

INTERVENTION

Participatory action research involving all stakeholders of the GHR programme-Community, CBOs, Partners, Consultants and Trocaire. The research questions focussed on assessing Awareness, Access and Action (AAA):

- 1) Awareness level of citizen's on three rights focussed by the programme
- 2) Access of citizen to duty bearers for claiming rights
- 3) Action taken on violation of right in past
- 4) Likelihood of action in the near future to claim rights

Sampling: A multi-stage simple random sampling method covering ethnicity, access and gender equality parameters.

OUTCOME

Results based Monitoring framework developed for Trócaire India GHR programme monitoring

Trócaire Global GHR programme was informed by India GHR participatory baseline approach

Capacity building support to Trócaire HQ and other GHR programme countries on adaptation of the tools to their local contexts (in Ireland)

Contributes to SDG(s)
