

Effective Vaccine Management

evmindia.org.in

Client:

Contributes to SDGs:

Location: Assam, Bihar, Chhattisgarh, Jharkhand, Uttar Pradesh

ISSUE

Lack of monitoring and evaluation system and with the rising cost of vaccines, greater storage capacity is required at every level of the cold chain. Due to this, it leads to stock unavailability, wastage, forecast vaccine requirements and equipment break-downs.

INTERVENTION

SDRC digitized the Paper Based Data Collection into Android Mobile Application (adapted from ODK, an open source tool).

DASHBOARD:

- 1) Colour coded facility scorecard
- 2) Data visualization
- 3) Downloadable factsheets

An innovation done by SDRC is the EVM data tree. This provides access to the actual response provided by the respon-

Spider charts offer an additional benefit of allowing comparison across two time periods. Thus, users can overlay the scores on a spider chart and compare current situation with baseline data.
